Recently was introduced to the Natural Pain Away solution. I am 59 years old and workout 4-5 days a week. I have had numerous surgeries, recently a rotator cuff repair and was having frequent pain after training. The pain away solution has greatly reduced, if not totally taken away any muscular pain. I love this product & highly recommend this natural solution.

This product is incredibly helpful! I have some sort of allergies and my skin breaks lots. On my hands, I get cuts because of washing them lots, and the skin gets too dry. I have used many lotions to hydrate and skin continues to break and the cuts hurt badly. When applying this product with a bandit, I went to bed and the next day, all the cuts had dried up, I washed and applied the product with bandits again. That's all it took to restore my skin and make it smooth again. ♥

I took a fall in Tennessee after a 5-day hiking trip and was unaware of how badly I was hurt and was fortunate to run into Jacky. He applied this cream and my pain was alleviated within minutes! I sent an early Christmas present to my brother to try this and hopefully he will have the same relief I did in several areas using this product!!!

I have suffered from chronic pain for years. I have tried many therapies, medications, and procedures to alleviate the pain. Some helped, most did not. Until I found this product. This blows away all competition, and it works so remarkably ... [More](#)

This cream worked great to take the pain away. I tore a ligament in my knee and was limping badly. Once I started using the cream within 4 days I was almost pain free.

I had 2 shoulder replacements and pain away has helped relieve alot of the discomfort that goes along with that. BUT my knee that needs to be replaced it has taken away so much of the pain. I was getting shots ( no more) my ankle my wrist everytime I feel some pain coming I use the patch. THANKS PAIN AWAY.

I have lots of chronic pain. I am overweight and suffering from a lot of issues that causes pain. I have chronic trigger finger pain and some days are good and some days are bad. Good days I almost have normal functions of my hand and on bad days, I can not make a fist and even typing hurts. I also have chronic knee pain that is from calcium deposit in the soft tissues in my knee joint.

I begin using this jell to relieve pain. You do need to put a healthy amount on the gauze and wrap the gauze and keep it in place. Pain relief happens in a few minutes and it can take your pain from 8 down to a much more tolerable level of 2 or 3.

I change out the bandage with fresh jell every couple of hours until the pain dissipates.

If you have pain chronic pain, this may just be the way to manage your pain.

Semi-occlusive and occlusive dressings are a great way to improve the absorption and therapeutic activity of herbal creams. The pilot product helped relieve golfer's elbow in conjunction with physical therapy.

I totally overworked my shoulder to the point I could not lift up my right arm. I applied the ointment on my shoulder and within 20 min I was able to lift up my arm. After a few applications the pain was gone. I now use it on all my aches and pains.

I had some persistent lower back/hip pain that was really bothering me. My wife convinced me to try this. While I was initially reluctant and a bit skeptical about whether it would do any good I gave in and decided to try it. Literally within minutes after applying it, the pain just went away. I was really surprised that it worked so well. Definitely worked for me and the pain subsided with just one application. I haven't had much in the way of recurrence but if I do, I know what I can use to help it go away quickly.
